“ *Greg Carrillo - 84 lit a candle I am so saddened to hear this news. I am really at a loss for words even though I have not seen Cherie in yeaaaars. I remember her as a great person who was always nice while we attended school together. To her family....may you accept my condolences and may God heal your pain. Cherie may you rest in peace as you will be missed by all of your friends and family.*

“ *Wendy Daray lit a candle I remember Cherie had one of the sweetest, most beautiful voices and personalities I had ever met. She always had a smile on her face when I would see her and always a kind word to share. She will be missed terribly by so many of her former classmates. Fly high our beautiful angel for you have now earned your wings. RIP*
