“Cherie perez lit a candle I I as very sad and shocked to hear the news of Betsy’s passing. I worked with her in GU at MD Anderson for many years. She taught me so much about prostate cancer during those early years. I am on a special committee called IRB. I was able to share my knowledge and interest with Betsy. I even recommended her for the committee. She served with me up until the time of her retirement. It was an honor to work with and know you’re sister and family member. I am very sorry for you loss.
